THURSDAY, MAY 20, 1926

Virginia killed the bill providing for the reading of the Bible in the public schools. Yes, Virginia is the state that elected a Roman Catholic treasurer in a recent election. Next.—Ex.

An attempt to give Al Smith the nomination for President.

Irving Berlin, who married the telegraph millionaire's Catholic daughter is reported as violently opposed to the Ku Klux Klan. Well, why not? Being a foreign Jew who started life as a singing waiter in a Chinatown saloon what else do you expect.—Ex. A visit from the stork next.

Our Guests

Miss Mary Featherston has been appointed sponsor from Appomattox to the Confederate reunion to be held at Farmville 10-11-12th June.

The Appomattox Chapter is raising committees all over the county to aid in entertaining the veterans who are to spend the day on the surrender grounds here on the 11th June. This is a county affair and all citizens of the county should aid the daughters in this tremendous undertaking. It will most likely be the last time we will have the defenders of our homes with us and we should play the part of host in keeping with the traditions of Appomattox. Your patriotic duty is plain and we feel sure that no visitor to Appomattox on that day will say he was neglected. We are expecting 2,000. It will be a big day for Appomattox County. Now is the time to get busy.

The Tablet

The tablet has the following inscription:

"Appomattox—Here on Sunday, April 9, 1865, after four years of heroic struggle in defense of principles believed fundamental to the existence of our government Lee surrended 9,000 men, the remnant of an army still unconquered in spirit, to 118,000 men under Grant."

Several other markers uniform with the Appomattox one will be erected at other historic points near Lynchburg, it is said. R. M. Colvin, commander of S. B. Gibbons camp, U. C. V., Harrisonburg, was associated with General C. B. Linney, vice-president of the Virginia Battlefield Markers' Association in securing the tablet.

SPOUT SPRING

The commencement at Spout Spring High School will begin on May 28, and will continue through the 31st.

A play will be given on Saturday night, May 29th, "Eyes of Love." The play will start at 8 o'clock. Ice cream will be sold.

Miss Careline Garrett, who has been visiting Miss Alma Murphy at Spout Spring has returned to her home in Richmond.

Miss Alma Murphy spent the past week-end in Crewe, with her sister, Mrs. R. H. Owen.

He's Cautious

Richmond, Va.—The Virginian is going to be a bachelor, for a while at least, because of his caution. To the questions of the clergyman at his wedding, the cautious groom insisted on replying: "I'll do the best I can." The ceremony was called off and the license returned to the county clerk's office.

OAKVILLE

Oakville High School closes June 1, 1926. The commencement sermon will be preached at Red Oak Baptist Church by Rev. Trent, of Appomattox, Sunday evening at 8 o'clock. The commencement exercises will be at the school building Monday evening May 31st, at 8 o'clock The exercises consist of a pageant, "America."

Miss Bailey and Miss Brandon, of the Oakville Faculty were delightfully entertained the past week-end in the home of Mrs. J. J. Harvey.

STAPLETON

Mrs. A. T. Drinkard, Louise, and Eugene Drinkard, spent week-end in Danville with relatives.

Mr. Henry Spradlin and wife, spent week-end with his parents here.

Miss Estelle Martin spent week-end with her sister, Mrs. Harding.

The Ladies Aid Society met last Thursday with Mrs. Mayes. Sixteen members were present, and all enjoyed the day very much.

VERA

The farmers in this section are becoming more progressive each year; and are realizing more and more that tobacco is not the only money crop. Some are raising tomatoes for the canneries and some are buying more cows and selling the cream; both of which bring in a nice little sum and help the farmer through, so that when he does sell his tobacco crop he does not have to pay it all out for debts contracted through the year, now if some enterprising farmer would organize a company and make cheese—the farmers would soon get "on their feet" so to speak, and then if the tobacco crop failed, or did not bring the prices expected they would not be entirely "down and out."

The farmers now are getting their tobacco land ready for the first season that comes along.

Most of the corn has been planted and much of it is through the ground. A good soaking rain is all that is needed to start us off—"Better late than never."

A huckster, who comes through here once a week is helping "we farmers" to pick up the stray pennies" and is an incentive to onward raising early chickens, producing butter and eggs, etc., several families have sold "broilers" already this spring.

Mr. and Mrs. Jim Megginson, and Mr. and Mrs. Hall, of Norfolk are spending their vacation with relatives and friends here. Mr. Megginson is an Appomattox County boy and is always welcomed home.

Mr. and Mrs. Wylie Garrette, of Richmond visited the home people last week—also Mr. and Mrs. Charles Garrette, of Lynchburg, and Miss Christine Garrette, of Blackstone Institute. They were called here by death of David, the young son of Mr. and Mrs. Monroe Garrette. The passing of this bright boy, cast a gloom over the whole community as he was a general favorite with all who knew him.

Mr. Harry Kinney, of Kennett Square, Pa., visited his home people last week. He was accompained by Mr. and Mrs. F. Weisen and son, Harrison, they returned to Pa., Monday.

Mr. and Mrs. H. W. Kinney, Mrs. Jerome Menefee and Mr. Harry Kinney motored to Lynchburg Sunday night to hear the lecture "Who is Your God" delivered by J. S. Emery, of the T. B. S. A., of New York. His lecture was both interesting and inspiring and made one realize that the God of this world, will have soon to end his reign—the fight is on between the "Beast and the Lamb" and all Bible students know which one triumphs, Rev. 17-14. There will be another lecture at the Trenton, at Lynchburg, next Sunday night, the 23rd, at 8 p. m. All interested in the trend of the times would receive inspiration and information by attending.

GREAT RIVER WILL ATTEMPT COMEBACK

St. Paul-New Orleans Barge Line Planned.

Moline, Ill.—Is the Mississippi river to stage a comeback?

With the assured operation of a barge line on a six-day schedule between St. Louis and Minneapolis, following the great success of the federal barge line for several years past between St. Louis and New Orleans, there appears to be a new and brighter day dawning for the "Father of Waters," at least from a freight standpoint.

An agreement, reached after a series of conferences between Minneapolis and St. Paul business men and Secretary of War Davis and Gen. T. Q. Ashburn of the Inland Waterways corporation, means that the government will supplement the $500,000 subscribed by the upper river cities to the extent necessary to provide adequate transportation service above St. Louis.

At the outset the equipment will include three boats of 600 horsepower each, 152 feet in length, 32 feet beam and a mean draft with fuel of 3 feet 6 inches. There will also be fifteen steel barges of 400 to 500 tons capacity each.

This fleet will insure sailings six days of the week, connecting at St. Louis with the Mississippi-Warrior service.

Bids will be opened in time to permit construction during the coming year and starting of the service with the opening of navigation in the spring of 1927.

Channel to Be Deepened.

Some improvements of the river are planned. Forty-one miles of the channel between Moline and St. Louis will be deepened. In the Moline district of 658 miles, about 450 miles have a minimum depth of six feet at low water. It is the purpose to deepen the remainder by either dredging or scouring before the new barge service opens.

There was a time when this artery of commerce was big with importance, both for the transportation of passengers and freight. A trip on the river was regarded as a treat. The cuisine of the lordly steamers was world renowned. And to add to the lure there was always the chance of a test of speed, sporting events of no mean importance.

Perhaps the most treasured memory of the veterans was the great race between the Natchez and the Robert E. Lee in 1870. These boats ranked with the largest and fastest craft on the river. The Natchez was built at Cincinnati and was commanded by Capt. T. P. Leathers. The Robert E. Lee was launched at New Albany just after the Civil war. John W. Cannon being it command.

There was the greatest rivalry between the two competing owning. Huge bets and it was finally decided to arrange a race, purely for the purpose of determining speed supremacy.

Captain Cannon stripped the Lee for the race, smashing all the upper works and rigging that could be dispensed with. He refused all business of any kind, and no passengers were carried.

The race was to be upstream from New Orleans. On the afternoon of June 30 the Lee backed out from the levee and five minutes later the Natchez followed.

The Lee Wins Handily.

The entire nation watched the race with breathless interest. The telegraph reported the progress and the relative positions of the two craft at every point. At the principal cities of Natchez, Vicksburg, Helena and Memphis thousands assembled on the river banks to catch the flight of the river leviathans.

The Natchez lost, due to some ill luck in running into a fog bank north of Cairo, which caused a delay of six hours. Captain Cannon reached St. Louis with the Robert E. Lee an easy winner his time being 3 days, 18 hours and 30 minutes.

With the passing of the river steamers also went the gamblers. The spirit of adventure was rampant in those romantic days. Large sums of money were carried by the planters. The betting spirit was rife, and the card sharks found rich pickings.

Time Lost by Finest Official U. S. Clock

Washington.—America's most timely clock clicks off the fleeting moments with a variation of only one-hundredth of a second a day.

Enclosed in an air-tight chamber especially constructed to keep outside influences away from the government's master timekeeper, the standard clock at the bureau of standards, which has this small variation in time, is used as a yardstick for measuring time intervals at the bureau. The clock is electrically wound twice a minute.

Its time is checked each day by comparison with the moon signal from the naval observatory, which uses solar observations to set the nation's time.

Stage Fright

Rumford, Maine.—A timid young swain and his girl are missing and the city's home exposition is minus its big feature. Arthur Tenworthy and Alice Russell were to have been married at the show and to have received many gifts. The police scoured the town in vain when they failed to show up. They had stage fright, presumably.

IF YOU had a hired man that did this to your cream you would fire him quick. Yet your cream separator may be doing the same filing and you don't realize it. You can easily tell, without a cent of cost, if your old separator is doing you or not.

Just ask us to bring out a new De Laval and run your skim-milk through it. Any butter-fat you have been feeding will be recovered. Have this cream weighed and tested and you can tell exactly what you have been losing. Hundreds have tried this plan and have found a new De Laval saved from $5 to $10 a month.

The new De Laval is the best separator made in 46 years of De Laval manufacture and leading. It has the wonderful "floating" bowl—the greatest separator improvement in 25 years. It is guaranteed to skim cleaner. It also runs easier and lasts longer.

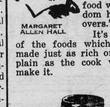
THE TIMES-VIRGINIAN

In the Kitchen with 6 Famous Cooks

FOUR DELICIOUS CAKES FROM FOUR CORNERS OF THE UNITED STATES

(Ed. Note: This is one of a special series of articles contributed by 6 Famous Cooks. Their recipes are "different." Cut them out and paste them in your cook book.)

Who ever heard of a family without at least one "cake-eating" member? It's pretty certain that such a household doesn't exist. Usually there are several folks clamoring for cake and more cake. It's the one food which seldom has "left-overs."



MARGARET ALLEN HALL

It's also one of the foods which can be made just as rich or just as plain as the cook wants to make it.

For the Chocolate Fans

Rich Devil's Food cake with Lallander frosting is a cake which chocolate lovers who like chocolate, Miss Margaret Allen Hall, nutrition expert at the Battle Creek College of Home Economics, gives this as her favorite recipe:

½ cup butter
1 cups sugar
2 eggs
1 cups flour
1 teaspoons baking powder
½ cup chopped nuts
2 squares chocolate

Cream the butter well, one cup of sugar. Beat egg yolks, add the other cup sugar, beat until creamy. Combine the two mixtures. Sift flour, measure, and sift with baking powder and add to egg mixture alternately with the milk. Add melted chocolate and nuts, and fold in egg whites. Bake in deep pan, or in layers. Cover with Lallander frosting.

Lallander Frosting

1 egg
1 cup sugar
2 squares chocolate cut fine
3 tablespoons milk
3 tablespoons butter
½ teaspoon vanilla

Beat the egg, add milk, butter, sugar and chocolate. Cook slowly over flame, stirring constantly. When mixture comes to a boil, remove from fire, add vanilla and beat until thick enough to spread.

For the Children

Mrs. Sarah Tyson Rorer, the Philadelphia cooking expert, has an excellent recipe for a delicious molasses cake. "Give the children as much as they want," she says Rorer. "It is wholesome for children."

Here is Mrs. Rorer's recipe: Dissolve one teaspoonful of baking soda in two tablespoonfuls of warm water. Add one cupful New Orleans molasses, a quarter of a pound of melted butter, one cupful of sour cream, and one tablespoonful of ground ginger. Add three cupfuls of pastry flour and beat until smooth. Bake in a shallow pan on upper shelf of medium oven for about 20 minutes.

This may be served with whipped cream as a delicious dessert.

Use Bananas, Too

Bananas flavor this delicious cake recommended by Mrs. Kate Brew Vaughn, Los Angeles cooking expert. The ingredients are:

¼ cups sugar
½ cup shortening
2 eggs
2 large mashed bananas
½ tablespoons sour milk
1 teaspoon soda
2½ cups flour
1 teaspoon baking powder
½ teaspoon salt
½ cup chopped walnut meats

Cream sugar and shortening; add the beaten eggs. Dissolve soda in sour milk and add. Sift flour, baking powder, and salt together and add. Mix and add bananas. Pour into well greased and floured cake pans. Bake in moderate 350 degrees F. for 25 minutes. Ice with banana whip.

1 banana
1 cup granulated sugar
1 egg white

Put all three ingredients in a bowl. With a Dover egg beater whip until mixture is of the consistency of stiffly beaten whipped cream.

THE TIMES-VIRGINIAN

Sunshine Prune Cake

Mrs. Belle DeGraf, San Francisco, home economics counselor, contributes her recipe for Sunshine Prune Cake.

2 eggs
1 cup sugar
2 cups flour
1 teaspoon baking powder
½ cup milk or water
¼ cup melted shortening
1 teaspoon vanilla
1 teaspoon lemon

Sift dry ingredients, except sugar; beat eggs until light, add sugar and beat well; then add dry ingredients alternately with liquid, mixing well. Add flavoring and melted shortening. Pour batter into well oiled pan greased pan, cover top with pitted uncooked prunes, placing the fruit in even rows, sprinkle with cinnamon and sugar. Bake in a moderate oven.

(Don't miss next week's special cooking article on this page.)

It's Worth It

Every housewife who uses an oil stove should devote five minutes to each week's care of the wick reservoir and wiping of the wicks. This care insures perfect flame and no soot or odor.

Vegetable Cookery

In cooking vegetables use as little water as possible. Have it boiling when the vegetables are put in, otherwise the vitamins, salts, and flavor are lost.

Is cake baking really difficult?

"Not when you have the right stove," say six famous cooks.

There is no reason why cake-making should be less successful than any other cooking operation—when the cook can depend upon her stove.

THAT is the statement of six famous cooks who have just completed a practical cooking test of the Perfection Stove. All six agreed in praising the Perfection highly for its baking ability, as well as for its general performance.

"Speaking of cakes, half the making is in the baking," said Miss Rosa Michaelis, New Orleans, domestic science specialist.

Delicate Angel Food

"An even temperature must be maintained while an angel food and other cakes are baking," added Miss Margaret A. Hall, nutrition expert of the Battle Creek College of Home Economics. "When I baked cakes in the Perfection oven I used a standard, portable oven thermometer as a check. The flame did not creep or crawl. You can depend on the Perfection flame to remain as you set it."

"My orange cakes and devil's foods were delicious," commented Mrs. Kate B. Vaughn, Los Angeles, household economics director. "The air circulation in the Perfection oven seems perfect. All excess moisture was carried away."

"It's the 'live heat' of the Perfection Oven which brings such good results," said Mrs. Rorer, famous Philadelphia cook.

"The Perfection oven is so roomy that there is room for several cakes at a time," said Mrs. Belle DeGraf, San Francisco. "And, through the glass door of the oven you can see just how they are baking. No need to open the door and lose any heat."

Miss Lucy G. Allen, of the Boston School of Cookery, commented on the visible oil supply. "You can see," she remarked, "whether you have enough for your cooking. If not, it's easy to refill the Perfection reservoir without soiling your hands."

High Praise

These are just a few of Perfection's good baking points which the six expert cooks praised highly. You will find many others when you bake on a Perfection. It's the stove which proves cake-baking is *not* difficult.

See the 1926 Perfections at any dealer's. All sizes from a one-burner model at $6.75 to a five-burner range at $120.00.

Manufactured by
PERFECTION STOVE COMPANY
Cleveland, Ohio

Clean, Even Cooking Heat

The long chimneys of the Perfection burn every drop of the oil before it reaches the kettle. Thus you get clean, even cooking heat, free from soot and smoke.

You can be doubly sure of this sort of heat when you use a pure, water-white Kerosene that burns cleanly, evenly and without odor—"Standard" Kerosene. It is specially refined.

All impurities that might cause smoke or leave deposits of soot are removed. This assures the maximum amount of heat. By sticking to "Standard" Kerosene you are sure of best results from your Perfection. Insist on it. You can buy it anywhere.
